YOUR BIRTHDAY and HOROSCOPE

TUESDAY, JANUARY 11 — Born today, your chief characteristic is honesty—both in your appraisal of yourself and in your dealings with others. Give to much soul-searching, you have probably come to know yourself extremely well—your abilities, your limitations, your assets, your drawbacks. For this reason it is doubtful whether you will ever make any seriously erroneous decisions about yourself.

Because you know what you can and can't do, and have taught yourself to be happy with the former and disinterested in the latter, you will probably lead a very well-ordered life. At the same time, however, because you have a well-developed sense of contentment you may find as you grow older that you have missed a lot in the way of adventure and excitement.

When it comes to marriage, you must take care to choose a partner who is willing to live within the status quo. A person who seeks change, newness, and satisfaction for a restless nature would suit you ill. Indeed, as a parent, however, you must be equally careful; should your offspring show signs of an adventurous spirit that seems alien to you, avoid interfering. Let it be a case of "let each his own."

To find what is "in store" for you tomorrow, select your birthday and read the corresponding paragraph. Let your birthday star be your daily guide.

—Though you may not see or hear the opposition, it is certain to be present today. The wise Capricorn will be low.

AQUARIUS (Jan. 21-Feb. 19) — Success is in store for you if you recognize the limits of the day's possibilities. Set yourself a reasonable goal.

PISCES (Feb. 20-March 20) — A day when personal aims should be realized. You can hasten that end by aiding another to recognize his own possibilities.

ARIES (March 21-April 20) — You should be able to promote business deals with new prospects today—but only if you take personality factors into account.

TAURUS (April 21-May 21) — Attend to routine matters before turning to new and perhaps more exciting affairs. Make your approach a friendly one.

GEMINI (May 22-June 21) — Make an effort to keep another from moving too fast at the same time that you avoid putting a damper on his enthusiasm.

CANCER (June 22-July 23) — Outside opposition may prevent

your attaining a personal goal at this time. Bide your time; later you can make hay while the sun shines!

LEO (July 24-Aug. 23) — If you are subtle enough to make aggressive action without seeming to do so, you should reap generous benefits by evening.

VIRGO (Aug. 24-Sept. 23) — Avoid friction with co-workers and with members of your immediate family. Overlook faults in others if you would gain.

LIBRA (Sept. 24-Oct. 23) — A change of fortune may bring temporary reverses. Meet setbacks with the determination to recover, not with discouragement.

SCORPIO (Oct. 24-Nov. 23) — Caution and a good day go hand in hand at this time. Best to stick to routine unless you're feeling adventurous.

SAGITTARIUS (Nov. 24-Dec. 23) — Meet problems head-on and deal with them openly. Secret negotiations are not your cup of tea at the moment.

There's something in this flameless clothes drying

Clothes come out of the electric dryer so soft, fresh, fluffy and wrinkle-free, you just can't resist burying your face in them.

If you're one of the persons who thinks nothing can match outdoor drying, consider what the outdoors has that dryers lack—wind, rain, snow, freezing temperatures, dust, mud, snow, playing children and their pets—to name a few.

You can see why dryer-dried clothes can be cleaner and more sanitary than

all outdoors... fluffier and fresher, too... why clothes last longer, and retain their colors when dried electrically.

The flameless electric dryer is among the lowest-priced of major appliances. Why put up with the cold and inconvenience of old style laundering any longer?

Senator Tells Of Plan to Reapportion

BLACKFOOT, Idaho (AP) — State Sen. J. Cecil Sandberg says he will propose dividing Idaho into districts with one senator for every two representatives at next month's special session on reapportionment.

Sandberg, D-Bingham, is the first to announce he will introduce a specific reapportionment plan at the session tentatively scheduled to begin Feb. 14. Other plans are being prepared.

He also said that if legislators fail to agree on reapportionment, he will propose that both the Senate and House adopt four reapportionment plans and leave the final choice to a federal district court.

"This was done in Indiana and New York," said Sandberg, "and if we cannot get together then I think this is the only sensible solution."

The special session was set after the federal court invalidated 5 Senate seats in a reapportionment adopted last March.

Sandberg's proposal would reapportion the House as well as the Senate, giving Idahoans 35 senators and 70 representatives. The plan would consolidate Idaho's 44 counties into 21 districts. Districts with two senators would select one from rural areas and the other from urban areas.

Sandberg said the district boundaries would follow county lines and attempt to group areas with similar economic interest. "But whatever we do," he said, "we had better do it right and in as short a time as possible. When people see what the special session is going to cost them, we had better have some good answers."

How much is hope worth?

A child is our hope for the future. But how much hope is there that a child will survive through his adventure of birth — the perils of childhood — to attain the strength and stature of the child of our dreams.

Since 1940, scarlet fever deaths show a 99.7 percent reduction. Whooping cough deaths are down to "0"; the same for diphtheria. And so on through a long list of the child-killers of a few years ago. So there's a lot more hope for the newborn child of today than there was 25 years ago.

How much is hope worth? The research that has developed life-saving drugs and techniques... the modern equipment and professional personnel that hospitals must have on hand... and the highly trained doctors that perform life-giving services to the ill and injured... are by necessity expensive. But, how much is hope worth?

If it's you or someone you love who requires the use of the complex equipment, the miracle drugs and the medical skills to keep hope alive, the last thing you want to worry about is the cost.

This is why the hospitals of Idaho organized Blue Cross — a nonprofit, prepayment method of meeting the cost of modern health care services.

When you are a member of Blue Cross, your hospital bills are paid in benefits of this service, not limited sums of money.

You get the care, Blue Cross gets the bill...

This is why Blue Cross stands alone as the most realistic system of prepaid health-care coverage. It removes the worry you may have about the cost of the care you need.

One out of eight Idahoans will require hospitalization this year. You, or a member of your family, may be one of them. With modern medicine and hospital care, the chances of recovery are excellent.

But how much is that hope worth? To you?

Remember, when you need Blue Cross... nothing else will do.

Market for Coal, Lignite Is Reported

WASHINGTON (AP) — A report estimating that the potential market for coal and lignite in western states by 1980 for electrical generation and manufacturing will be from 97 million to 134 million tons annually was made public today by the Interior Department.

The office of coal research said the conclusions indicated a potential from nine to 12 times the tonnage consumed in that area in 1963.

Specific actions by the government and industry for enhancing and achieving the potentials are recommended in the report of the consulting firm of Robert T. Nathan Associates, Inc., Washington.

The report covers the states of Washington, Oregon, California, Nevada, Arizona, New Mexico, Utah, Colorado, Idaho, Wyoming and Montana.

CUNEO, Italy (UPI) — A girl of 14 has married a 62-year-old widower. She has become the step-mother of 10—the oldest aged 30—and seven little ones call her grandmother.

Businessman Francesco Cassella and young Jolanda Margherita Dovetta, whose mother is a poor peasant woman, were married Dec. 27 in the village of Frassinio.

The plans were issued only today. The bride was delayed until Catholic Church authorities gave a special dispensation required because of the bride's age.

Helicopters Retrieve Car For Nuns

QUAT NHON, South Viet Nam (AP) — The Sisters of the Cross of Love have their car back in running order but it took five U.S. helicopters to do it.

The story goes back a year to the village of Xuan-Thuon, 10 miles north of Qui Nhon and 260 miles northeast of Saigon, on the South China Sea coast.

The Viet Cong seized the place last year. Sister Julie, acting as mother superior, herded her handful of nuns out to safety.

They left behind their little diesel-powered vehicle, but first stripped it of battery, distributor cap and other vital so it could not be operated.

Bridges in and out of the village were down and the car couldn't get far anyway.

Two months ago Korean troops came back to Xuan-Thuon but the bridges still were out and the village was an oasis surrounded by the Viet Cong.

The nuns went back to their convent base and found the vehicle useless.

Sister Julie is stubborn about things that are useless. Through Father Sanh in Qui Nhon she appealed for help.

The U.S. 1st Air Cavalry Division responded. Five choppers were lined up for the job. In went tires. Pathfinders secured the base. A Chinook hoisted over the beat-up old vehicle, picked it up and brought it out.

The rescued vehicle was landed in Qui Nhon and now is transporting children to school, running errands for the parish and is a generally pretty zippy addition to the work of the church.

Idaho Schools Get Federal Aid

New Fad

DES MOINES, Iowa (AP) — Two girls, ages 13 and 14, were referred to juvenile authorities after a d m i t t i n g they had clipped tabs from inside the neckbands of 39 men's shirts in a downtown department store.

Police detective William Marohn said the girls told police there is a new fad at school whereby the girls make bracelets from the tabs.

Marohn estimated damage at \$22.

Fisherman in Good Condition After Radio Aid

BOSTON (AP) — Henry Ingram, 61, a fisherman whose injuries were treated through radioed emergency instructions, was reported in good condition today at the U.S. Public Health Service Hospital.

Ingram, of Mattapoisett, suffered a head gash Sunday when he smashed into a broken porch hole on the trawler Rush in rough seas off Cape Cod.

Dr. John Ratino, surgeon on duty at the hospital, set up radio communication with the trawler and gave instructions for emergency treatment.

Ingram was transferred to the Coast Guard cutter Acushnet and later was flown by helicopter to Boston.

Duke Retains Top Spot in College Poll

NEW YORK (UPI)—Duke's high-flying basketball team, riding the crest of a nine-game victory streak, maintained its No. 1 position in United Press International's weekly college basketball ratings Monday by compiling 28 first place votes.

Kentucky, Vanderbilt and St. Joseph's protected their berths directly behind the Blue Devils in the balloting, based on games through Saturday.

Kentucky's unbeaten Wildcats made up a measure of ground as they gained five votes for the top spot and 297 total points, compared to three votes and 280 points a week ago.

Bradley vaulted to fifth place on the strength of three victories last week, moving up two notches. Brigham Young slipped one place to sixth and Providence fell back to seventh.

Texas Western, with a spotless 12-0 state, made its first appearance of the year in the upper echelon in ninth position, one place below UCLA, Kansas, which shared ninth place with Iowa last week, skidded to 10th.

United Press International major college basketball ratings with first place votes and week-to-week records through games of Saturday, Jan. 8, in parentheses:

Versalles Seeks \$25,000 Raise

ST. PAUL-MINNEAPOLIS (AP)—Zollo Versalles of the Minnesota Twins, the American League's most valuable player last season, says he will seek a \$25,000 pay raise this year even if the demand causes trouble.

Calvin Griffith, president of the baseball club, has offered the shortstop about a \$10,000 raise.

Versalles joined pitcher Jim (Mudcat) Grant in asking salaries in the \$20,000 bracket. Both were stars in the Twins' season last year.

Strings Pulled to Keep Clay Civilian?

SAN FRANCISCO (UPI)—Is some one pulling strings to keep heavyweight champion Cassius Clay out of the Army? This was suggested in a possibility Monday by Silverman, prominent San Francisco attorney and chairman of the California committee on boxing safeguards, in an exclusive interview with United Press International. "It's ridiculous to believe that a man of Clay's intelligence, alertness and ability to answer questions in rapid-fire sequence, is being kept out of the Army on grounds that he cannot pass the intelligence test given prospective in-

and I came away convinced there is an intention to keep him from going to the Army, and he seems to know what he wants and is determined to get it. He also struck me as a very warm person, sensitive to what people think of him and a man of great imagination.

"It's really very difficult to picture such a man joining the Army, not once but twice. I'm sure there are many boys in the Army now, and in Vietnam at that, with less schooling than the champion. He should not be kept out for any reason, especially the excuse given out by draft board officials.

"With the mood of the country, turned toward the war in Vietnam more and more these days," continued Silverman, "I am sure it would be a fine gesture indeed for Clay to perform leading a contingent of current champions and former champions on a tour of Southeast Asia."

Uninterested
CHICAGO (UPI)—Heavyweight champion Cassius Clay (Muhammad Ali) was uninterested Monday in the suggestion by San Francisco attorney Sol Silverman that perhaps some strings were pulled to keep Clay out of military service.

"Who's he?" Clay asked. "What he says don't mean nothing."

"I don't know anything about this, and I don't waste time reading things that don't have nothing to do with boxing," said Silverman, who knows Clay and has spent many hours conversing with him.

"His situation certainly suggests something peculiar," continued Silverman. "Maybe somebody is pulling some strings somewhere, because no one, including Clay, can convince me he is not intelligent enough to serve in the Army."

Silverman, who was instrumental in getting House approval for a bill to police boxing and establish a federal commission, also took the champion to task, further suggesting that he should not wait for the Army to select him and should enlist on his own.

"Clay owes boxing and his country a large debt and he can best pay it off by enlisting in the Army," said Silverman. "The presence of the heavyweight champion in Viet-Nam, by instance, in these perilous times, would do a lot for the morale of our troops there."

"Historically," Silverman went on, "boxers, especially champions, have gone into the services during war-time and played a large part in helping build morale."

Joe Louis was an excellent example of this. He didn't wait for the Army to draft him—he went to it of his own accord—and in the peak of his career—putting on exhibitions and instructing our boys in boxing.

Silverman recalled spending some 10 days with Clay in June, 1963, in London while Clay was preparing for a fight with Henry Cooper.

"We talked on a number of occasions then," said Silverman,
